OUR MISSION

We are a 501(3) nonprofit that provides businesses with access to disability inclusion training and materials. Our passion and expertise is in consulting businesses on how to manage disabilities in the workplace. We are committed to helping businesses create a workplace that is diverse, equitable, and inclusive.

Our disability inclusion training program is fun, interactive, and customizable, which is great for personalized learning and receiving

immediate feedback.

Our team has deep knowledge of employment barriers that make it difficult or even impossible for individuals with disabilities to function.

When businesses learn about these barriers and make a decision to remove them, it's a win-win for everyone. Individuals with disabilities succeed in obtaining employment and businesses succeed in retaining talented employees.
